

Issued: July 07, 2020

To Whom It May Concern,

Due to the increased in the number of evaluation questionnaires we received, we've found it to be cost & time effective to provide you with the attached quality system information. Our hope is that the information provided will satisfy your system requirements and answer any question you might have concerning TECI.

Please reference the attached. Should you require any additional information, please contact us directly @ tim.heckart@cdmgt.com or 417-781-8324.

Thank you.

Kind Regards,

A handwritten signature in dark blue ink, appearing to read 'Tim Heckart', with a stylized flourish at the end.

Tim Heckart – Chief Operating Officer, Quality, & Export Compliance

E. Does training program address unapproved and counterfeit parts?	✓		

	Y	N	N/A
5. Procurement			
A. Does the system assure that parts procured conform to the customer's documentation requirements?	✓		
B. Does the quality system assure that parts conform to the customer's purchase request and that deviations are disclosed and approved by the customer?	✓		
C. Does the system require the distributor/dealer to maintain a list of approved suppliers and a quality history for each source?	✓		
D. Does the quality system assure that parts procured for sale:			
1) which are known to have been subjected to conditions of extreme stress, heat or environment are identified?	✓		
2) that all represented Airworthiness Directives (AD's) which have been accomplished are documented?	✓		
3) that are identified as overhauled, repaired or modified have all appropriate signed and dated documentation?	✓		
6. Receiving Inspection			
A. Does the quality system provide for a visual inspection of all items received and accompanying documentation?	✓		
B. Is there a procedure for reporting unapproved parts in accordance with FAA Advisory Circular 21-29?	✓		
C. Is there an accountability system in place to control stamp issuance, usage and replacement?			✓
7. Measuring and Test Equipment			
A. Is there an effective calibration program for test equipment?	✓		
8. Material Control			
A. Is material handled in an appropriate manner and is the material protected from damage & deterioration?	✓		
B. Is batch/lot control maintained for parts so identified by the manufacturer?	✓		
C. Is there a system in place for recall control which ensures that parts shipped can be traced and recalled?	✓		
D. Whenever practical, is material stored & delivered in the manufacturer's original packaging?	✓		
E. Does the system specify material control requirements for material subject to damage by electrostatic discharge?	✓		
F. Does the system assure that serviceable parts/components are adequately protected against the environment?	✓		
G. Does the system assure that no part number ambiguity exists?	✓		
H. Does a closed loop system exist to implement corrective action following detection of substandard or nonconforming parts?	✓		
1) are aircraft parts being segregated from non-aircraft parts?	✓		
I. Is there a documented procedure in place to mutilate scrapped parts to prevent the possibility of their being restored and returned to service?	✓		
J. Are suspected unapproved parts reported to the FAA according to AC 21-29 or to the appropriate CAA?	✓		

	Y	N	N/A
9. Shelf Life Control			
A. Does the distributor have a system for identifying and controlling shelf life-limited parts?	✓		
10. Certification and Release of Materials			
A. Does the system call for providing the customer with appropriate documentation?	✓		
B. Does the system provide for the issuance of a certified statement disclosing that the material or parts were or were not:			
1) subjected to conditions of extreme stress, heat or environment;	✓		
2) parts previously installed in a public aircraft, such as a government use aircraft or a military aircraft.	✓		
11. Shipping			
A. Does the quality system require shipments in ATA-300 containers or equivalent as appropriate for the unit being shipped, or as specified by the customer?	✓		
B. Does the quality system provide for a visual inspection of all items and accompanying documentation prior to shipping?	✓		
12. Records			
A. Does the record system require record retention for at least 7 years from the date of sale to the customer?	✓		
B. Does the system require all life-limited parts have records confirming current life limited status?	✓		
C. Are records protected against damage, alteration, deterioration and loss?	✓		
13. Technical Data Control			
A. Does the quality system provide for maintaining technical data in a manner which ensures such data is up-to-date and accessible?	✓		
14. Corrective Action Process			
Does the quality system include a process for addressing corrective actions?	✓

Joplin, Missouri 64803

END USE/USER STATEMENT

To Whom It May Concern:

Compliance with United States Export Regulations:

Turbine Engine Consultants, Inc. (TECI) has adopted an Export Compliance Management Program or EMCP. As such, TECI will comply with all United States export control laws and regulations. Consistent with U.S. export control laws and regulations:

1. TECI will not export or re-export any U.S. export controlled products to any debarred country unless otherwise authorized by the United States Department of Commerce or Department of State.
2. TECI acknowledges that U.S. law prohibits the sale, transfer, export or re-export or other participation in any export transaction involving U.S. export controlled products with individuals or companies listed in the U.S. Commerce Department's Table of Denied Orders, the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Department of State's list of individuals debarred from receiving Munitions List items.
3. TECI abides by all applicable U.S. export control law and regulations for any products subject thereto and will obtain any licenses or prior approvals required by the U.S. government prior to export or re-export of U.S. export controlled products.
4. The export control requirements stated hereinabove shall survive the completion, early termination, cancellation or expiration of the applicable purchase order, agreement or contract.

TECI recognizes that it is solely responsible for obtaining and complying with the latest information of denied parties and current shipping embargos.

Regards,
